To Whom It May Concern:

PRODUCER STATEMENT

The Polyflame and Glasflame torch-on membrane system is an APP modified bitumen membrane used for a wide variety of waterproofing applications including roofing.

Waterproofing Systems Ltd confirms that when applied in accordance with our published specifications the Polyflame/Glasflame system will provide a watertight membrane. We further confirm that this system conforms to NZBC B2.3.1(b) and is durable for 15 years.

The durability of the Polyflame/Glasflame system has been independently verified by BRANZ and it has had a valid BRANZ Appraisal Certificate since 2000. The current Certificate Number is 404 (2005).

Waterproofing Systems Ltd issues the material warranty at the completion of the installation and on completion of our QC process. The subcontractor is responsible for issuing the workmanship warranty.

Yours sincerely,

John Stallard
Technical Director
