To Whom It May Concern:

PRODUCER STATEMENT

The duroSET® and duroQIK® liquid applied systems are rubber based membranes used for a wide variety of covered internal and external waterproofing applications. Such applications include bathrooms and other internal wet areas, and external decks and balconies.

Waterproofing Systems Ltd confirms that when applied in accordance with our published specifications the duroSET® and duroQIK® systems will provide a watertight membrane. We further confirm that this system conforms to NZBC B2.3.1(b) and is durable for 15 years.

The durability of the duroSET®/duroQIK® system has been independently verified by BRANZ and it has a valid BRANZ Appraisal Certificate. The current Certificate No's. are 469 (2005) and 470 (2005).

Waterproofing Systems Ltd issues the material warranty at the completion of the installation and on completion of our QC process. The subcontractor is responsible for issuing the workmanship warranty.

Yours sincerely,

John Stallard
Technical Director
